

Meet Coleen

Like so many three year old's, Coleen's favourite things to do are cuddle with her mom, dance with her dad and swim. Unlike most three year old's, Coleen's mom will never hear her daughter tell her she loves her, she will never run into her dad's arms for a dance, feel sand in her toes or taste chocolate. Coleen was diagnosed at birth with Cerebral Palsy, she is non-verbal, has a feeding tube, oxygen and a medication shunt. What Coleen can do however is float unassisted in the water – this is the only time Coleen can direct her movements and be free of her wheelchair. Please help us ensure that Coleen receives her wish!

Children's Wish is a uniquely Canadian charity that helps Canadian children, families and communities by granting the heartfelt wish of children diagnosed with life-threatening illnesses.

With every wish that we grant, we create moments of joy that ease the pain of a child, gives respite to the child's family in that special wish of hope.

It's hard to imagine what we would do without the companies, community groups and individuals who support us year after year so we can continue to fulfill the healing hope of every wish child.

3 wishes granted each day, every day of the year...
